

**BRIEF DESCRIPTION:**

Deep Flexi-Tray - Large

**DESCRIPTION:**

Deep flexible tray ideal for use as a drip tray, plant and equipment tray or dispensing/mixing tray. Made from rubberised plastic the tray is lightweight and tough, the sidewalls reform after being trodden-on or crushed.

Prevent ground contamination and reduce the need for time consuming clean up by placing under plant and machinery to contain drips and leaks or in any situations where leaks and drips occur. Flexi-Tray can be lined with absorbent material to absorb liquids on contact to make emptying the tray easier and cleaner.
